

Make the Milk **EXPLODE**

Milk contains **fat molecules**.
Dish soap has **molecules** that are **attracted**
to the fat.

As soon as dish soap touches milk, the molecules race around.
You can see this when the *food coloring swirls and explodes.*

Materials

- Milk
- Food coloring
- Q-tips
- Dish Soap

Directions

Use a shallow dish or paper plate and pour enough milk so you cannot see the bottom.

Put drops of food coloring around the milk. Dip q-tips in the soap and then touch them into the milk near the food coloring.

Color a picture to show what happens.
Then write a sentence.
